

## Parameter of the injection moulding

Mold shaping	Injection moulding
De-mould Type	Automatic Eject
Mould base	LKM & Hsaco & DME
Mould material	NAK80,S136,2316,2738
Mould Cavity	Single or Multi,as per your requirement
Sprue Gate	YUDO runner,Hot runner,Cold nuner,Pin-point gate,Submarine gate,etc
Design Software	UG,PROE,CAD,CAXA,etc
Plastic material	PP,PC,PS,PA6,POM,PE,PU,PVC,ABS,PMMA,etc
Mould life	100-500K Shots
Delivery time	25-30 days

## Our service

**You can find the service as below in our factory, if have any requests, please feel free to send the inquiries at any time.**

- 1.Mechanical design and ID design
- 2.High precision injection molding
- 3.Rapid tooling
- 4.Double injection mold
- 5.Prototype both metal and plastic
- 6.Mass production for the injection molding
- 7.Low volume assembly and design review

**Any more interest or questions, please feel free to:**
